## THE COMPANY

**For over 50 years**, Elly has been more frequently regarded as a protagonist in the market, thanks to the quality and innovation of its products, responding and caring for consumers' needs. Created from the collaboration between phlebologists and Elly technicians, ANTISTRESS products are the ideal solution to all your customers' requests.

### THE PRODUCTION

Continual investments in production structures together with a constant updating in new products designing, as well as high-quality standards from the yarn to the finished product, make Elly a leading company worldwide.

The manufacturing of graduated compression products requires a more sophisticated technology which allows achieving a different tension of the yarn in the various points of the leg, from the ankle to the thigh, to obtain a specific level of graduated pressure, certified by the HATRA test.

### QUALITY AND CERTIFICATIONS

The ISO 9001 quality management system, based on accurate controls during the different manufacturing steps, ensures the quality of the production and the best assistance to meet the customers' needs. The Oeko-Tex standard 100 certificate guarantees the respect of human-ecological requirements of ANTISTRESS products. All the products are CE marked.

## EXHIBITION MATERIAL

The ANTISTRESS lines are accompanied with customized material, displays and window signs for every need, ALWAYS UPDATED.

**The new generation  
products  
with the “invisible”  
graduated  
compression**

Denlight products, made with a special highly breathable yarn, are extraordinarily transparent, soft and silky to the touch, giving an unprecedented combination of comfort and elegance and unique beauty to your legs. The beneficial effect offered by the capacity of releasing the damp from the skin, along with the graduated compression massage, gives your legs more comfort for the whole day and in all the seasons, under the trousers or with a light dress.

This is the leading range of the great ANTISTRESS family which includes supporting and relaxing stockings, knee-highs and tights in elastane which prevent circulation problems and provide relief from leg fatigue when standing or sitting for long periods. The polystretch structure, ensuring good fit, is transparent, air-permeable and ranges from 40 to 70 to 140 deniers. The special helicoidal weave provides a beneficial graduated compression massage, maximum at the ankle (100%) and decreasing until the thigh (50%) to help venous reflux. Also available are the Maternity tights with a special panty which harmoniously follows the developing of waist and hips and the Queen Size models with enlarged supporting panty for the best fit.

## THERMÆ

A revolutionary range of regenerating tights,  
specially designed by ANTISTRESS to relieve  
tired and aching legs.

The different ranges of graduated compression,  
light or strong according to the different needs,  
reduce tiredness and helps prevent aesthetical  
problems.

The innovative composition of the yarn with silver  
ions has an anti-bacterial and hypoallergenic effect  
and the micro-capsules of essential oils added during  
the dyeing phase provide a pleasant emollient,  
toning and revitalizing effect.

# THERAPEUTIC

It is the curative line particularly suitable for those who show the first signs of swelling and varicose veins, and includes open toe products, class I and II products, also for men.

Exercise an energetic massage on the most critical areas of the legs, offering continuous relief and support throughout the day.

The double layer of Lycra® promotes compression, maintaining its effectiveness and dimensional stability over time.

The special helical texture favors the flow of blood towards the heart and allows the structure of the product to adapt to the shape of the legs, making it particularly suitable for assisting post-operative rehabilitation and for correcting circulatory problems.
